Clewer Village

Smoke Control Areas

- Zone 1
- Zone 2
- Zone 3

Scale: 1:13000

Smoke Control Areas apply to parts of Windsor. The effect is to require householders to burn only approved smokeless fuels - e.g. gas, coke or branded solid smokeless fuels including Coalite and Homefire or alternatively use an exempt appliance - for more information see <https://smokecontrol.defra.gov.uk/appliances.php> and the Solid Fuel Association website - solidfuel.co.uk. This site also gives advice on fireplaces, appliances and fuels. The council encourages everyone to use an efficient modern appliance and burn only smokeless fuel.
